Subject: RE: 2019 SAE G/I Environment & Energy Sessions and scheduling matrix

Hi Environmental and Energy Sessions planning group,
 First thanks to everyone in the planning group, I think again we have a great list of exciting topics and have added a few new ones for next year. Attached it the latest list of Energy and Environment sessions based on our discussion from last week. On this list there are 10 sessions, the eleventh session listed will probably not be used and will be the topic of the Thursday plenary. This list is a "work in progress" and we are still filling in a few missing items, but it lists all the sessions and titles we are planning for. Also attached is a draft schedule matrix, everyone please take a look and if you see any conflicts with the schedule please bring it to my attention or at the meeting tomorrow.

Thanks again to everyone in the planning group,
 Arman
